Topic:

**Relative pronouns: “Who, which & that”**

## **ABSTRACT**

Relative pronouns are used link in a sentence in order to identify or provide more information about "a person" "a thing" or "place" previously mentioned, their correct use in sentences could be pretty hardly if L2 learners don't have the correct knowledge on their similarities and differences.

In order to avoid the lack of information in the use of these relative pronouns let's study the uses and the differences.

Key words: **who, which, that**

\*L2: second language learner

# Similarities and differences

**That**

This pronoun has different uses due to it can be use to refer to things, places, objects also to people.

**Who**

This pronoun is only to refer to people

**Which**

This pronoun is exclusively to refer to things, places, objects, etc.

# Let's do some practice
